We are an independent company and active trader with subject of activities on raw materials of construction, Petrochemicals, Mineral and metals, Oil products, commodities and all related industries products in domestic and foreign markets, offering logistics services, etc.

We **supply** the best  
You **produce** the best

Mikash Energy Team is committed to providing Petroleum products and services. Our industry will face challenges and changes in the future, but our leadership team's commitment to our core values remain constant. We are individuals who live and work in your community, and as such, we strive to deliver products and services that meet and exceed the needs of our customers and the communities we serve. Our team has several years of successful experience in trade of oil and gas products and derivatives, specially LPG.

Delegate

## Fast is better than slow

Mikash Energy knows you have a deadline and we are here to help you beat it. Friendliness is the way we work and live. Friendly service is what you get. Great just isn't good enough. Each customer should be delighted with their transaction. We accomplish this by setting realistic expectations and work hard to beat them.

## Commitment

Mikash Energy is committed to be globally recognized as a world class provider in petrochemical and other complementary industries with environment consideration to sustain profitable growth in order to maximize clients satisfaction. Our methods are to focus on what the customer wants. By listening and asking questions we learn the customer needs and provide them product and process solutions.

## Service

Mikash Energy do extremely well in carrying, processing and supplying all grades of bitumen used in the industry for road construction and waterproofing thus providing uninterrupted services for all clients. In times of stiff competition, we have managed to keep a sturdy position in the market owing to the strong good will we have maintained over the years amongst our clients. With a passionate team of workers who work round the clock, we provide bitumen at the most competitive prices. ## Product & Portfolio

**BITUMEN** is a black or dark-colored, amorphous, cementitious material that can be found in different forms, such as rock asphalt, natural BITUMEN , tar and BITUMEN derived from oil, which is referred to as petroleum bitumen. In general, the term “BITUMENs materials” is used to denote substances in which bitumen is present or from which it can be derived.

**BASE OIL** is the name given to Lubrication Oil grades produced by means of refining Crude Oil. During heating crude oil processing, light and heavy hydrocarbons are separated and the heaviest are suitable to produce Bitumen and Base Oil Base Oils are used to manufacture products including lubricating greases, motor oil and metal processing fluids.

## Product

Mikash Energy pays stringent attention to the packaging of our products. By following all the packaging procedures carefully, we ensure that all the possible damages that may occur during transportation are eliminated, in the first place itself. We support all producers and end users with the best quality raw materials for industries in fields of Construction, Petrochemicals, Mineral and Metals, Oil and commodities. We strive to deliver quality products and services according to the international first standards.
